GROUP EXERCISE CLASS DESCRIPTIONS

BODYPUMP® - This results-driven barbell class by Les Mills provides a workout that will strengthen all your major muscle groups by using the best weight-room exercises in a group setting. Be prepared for squats, presses, lifts and curls like you've never seen them before! Smart Start - Les Mills has conducted in-depth research into beginners' adherence to exercise, and knows that the key to great results is starting slowly. This means giving new people the option to leave after the first 20 minutes.

BODYCOMBAT® is a high-energy martial arts-inspired workout that is totally non-contact. Punch and kick your way to fitness. No experience needed. Learn moves from Karate, Taekwondo, Boxing, Muay Thai, Capoeira and Kung Fu. Release stress, have a blast and feel like a champ.

CLASSIC FITNESS - Music from the 60's, 70's and 80's is used to motivate participants in this rhythmic exercise format. Easy to follow, enjoyable motions and patterns to raise heartrate, break a sweat and bring a smile.

HIP HOP - We take the "work" out of workout, by mixing low-intensity and high-intensity moves for an interval-style, calorie-burning, fun fitness class. Inspired by a variety of dance genres, you'll find yourself moving from Hip Hop to Broadway through all-over-the-world musical influences. Incorporates muscle training exercises.

INDOOR CYCLING - A low impact group exercise class performed on stationary bikes. During the class, the instructor simulates hills, sprints, and races. You will be kept motivated by the instructor, the people around you, and the great music.

MORNING MOVES - Experience a class that combines, walking/rhythmic cardio, strength, stretching and balance exercises. Geared to older adults that want to have fun and experience results. Sitting and standing options included.

PILATES - This workout focuses on your body's core. Focuses on breathing, body control, flowing movements, stretching and precision. A strong core is beneficial to your back and better posture.

PIYO® - This is a unique class designed to build strength and flexibility. The moves fit perfectly together to form a class filled with intense choreography that's fun, challenging and will make you sweat. Think toned abdominals, increased overall core strength and greater stability.

PRANAYAMA/MEDITATION - Pranayama refers to breathing exercises which clear the physical and emotional obstacles in our body to free the life energy (prana). Meditation is a practice of cultivating awareness of our habitual thought patterns.

TABATA - This class utilizes extreme intervals to get you into great shape. Aerobic capacity, endurance, strength, and whole-body toning are just a few of the benefits of this exciting and challenging class.

YOGA - This class is designed to improve the health, performance, and mental acuity of athletes or individuals interested in improving their level of fitness. Also designed to meet the needs of those new to yoga as well as those seeking continued understanding of basic yoga poses.

- Yin Yoga - A slow-paced style of yoga as exercise where you target the deepest tissues of the body by holding the poses for longer periods of time.
- Yoga Vinyasa - Linking the movement of the body to the movement of the breath through a flowing practice to strengthen and build flexibility, promoting physical stamina and a sense of inner calm.
